2018 STRADA SL

FABRICA STRADA SL

Our FABRICA STRADA SL is built for the rider who is looking for a fast and light machine, but who also wants to be comfortable for longer rides. We designed a very agile and confidence geometry, in order to have a perfect handling control. All the parts and details on this frame are custom designed and made by us in house. Stainless steel dropouts to prevent rust, front derailleur stainless clamp and brake bridge plate to prevent the direct contact between components and paint. Our design utilizes a Columbus tubing selection: 28.6 seat tube and top tube, 35 mm down tube, 22.2 mm round chainstays and 14mm

reverse seat stays. The straight 36mm headtube accepts a classic external headset with 1-1/8 fork that. This tubing choice is a clear shout out to the more classic steel frames, reducing the frame weight and improving the comfort.

ALSO AVAILABLE WITH COLUMBUS XCR TUBINGS!

FABRICA PAINT WORKS

Our Official paint scheme is 3 colors based:

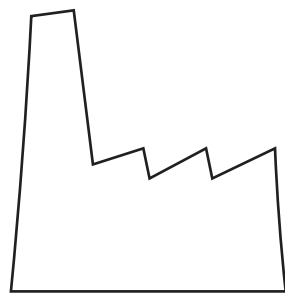

- 1 main color
 - 2 text, logo and edge color.
 - 3 label color + fork sock
- Internal fork color is set as label color.

You can mix it as you want choosing from a color chart and giving us a reference. We can offer matte, metallic, pastel finishings. You can see some frames we made and get inspiration.

We also make full custom graphics, painted stem and seatpost.
